

FONTEGRAFICA'S 2012 CALENDAR · SABBATICAL YEAR

20
ANNO SABBATICO
12

If you could go on sabbatical anywhere in the world, where would you go? This is the concept behind Fontegrafica 2012 calendar, created by the designer Azzurra Bacchetta.

The concept began with a simple proposal: Fontegrafica allow Azzurra "white paper" to realise her idea. The result displays the structure of the trip, the colors of the nations, the smells of the locations, the simple communication of a postcard and the emotion of a work of art.

Fontegrafica is a recognized leader in national and international printing industry, with superb printing techniques, impeccable packaging and refined taste in special printing processes.
